

2025 BEDDING PLANT CATALOGUE
BEAUTIFUL PLANTS, LOCALLY GROWN

WELCOME TO OUR 2025 BEDDING PLANT CATALOGUE.

Innovation

Our range continues to evolve in 2025. Bedding categories continue to meet a customer need for impulse sales to fill up pots, window boxes and hanging baskets all year round. Our main range developments for 2025 include;

Jumbo 6 Pack– We've added this new format to our range for the summer season, adding to our primrose and wallflower jumbo pack range. With the addition of a new larger label we're sure this range will look great on the bench and drive volume sales of premium patio plants. Look out for Ivy Geraniums and Calibrachoa for 2025.

Our Osteospermum range is growing in popularity. New colours added for 2025 and additional volume for 2025.

Senetti - Start the season early with these beautiful Cineraria plants. After a successful trial in 2024 we have added significantly more volume in 2025. A wide colour offering, growing in a large 3 litre pot. Targeting a March/ April sales window.

Nursery Developments

We've been busy over the last year, continuing to develop our growing facilities to ensure our quality, efficiency and service levels improve year on year.

2024 saw phase II of **our flood benching roll out** giving us our first Cyclamen crop at the end of 2024 and now full up with Geranium plants for this season.

Our new dispatch and storage shed is due to be completed by March 2025, which will dramatically speed up our dispatch, providing much needed space for storage and dispatch of plants to our customers.
